

Start your career in the growing GREEN field today!

Insulation Installer/Weatherization Technician

Accurate-Airtight Exteriors is looking for weatherization technicians to join our crew. We work year-round in both existing and new construction buildings. We are very busy and looking for you to be part of our growing team! Not only are you helping people save money and be more comfortable but also helping the environment through reduced energy consumption.

Job duties will include:

- Air sealing and caulking
- Loading insulation machine
- Stock service truck for daily duties
- Install insulation (mostly non-itchy cellulose and spray foam insulation)
- Installation of weather-stripping
- Temporarily removal and replacement of siding (wall insulation)
- Crawl space insulation, ground cover floor applications
- Venting and installing ventilation equipment
- Regular use of saws and other construction tools.
- Other duties as instructed by Team Leader

The ideal candidate will have the following skills:

- Team player
- Strong work ethic and willing to work hard
- Valid driver's license and good driving record is required
- Willing and able to work in small spaces a plus
- Ability and willingness to learn new skills

Knowledge and experience with any of the following skills a plus:

- Insulation
- Siding
- Roofing
- Windows and doors
- Energy audits
- Painting
- General carpentry
- Quality control/inspections

We work year round and schedule a 35 - 45-hour work week, depending on season. We also offer 6 Paid Holidays every year! We work hard and we play hard, with company parties and lunches. We LOVE to promote from within, so if you are interested in job growth we are for you.

Employees are paid weekly at a competitive rate based on prior experience.
